OBJECTIVE

Computer Science student seeking a Software Engineering or IT internship focused on backend systems, databases, and real-world application development.

EDUCATION

B.S. Computer Science — Expected May 2029
UNIVERSITY OF EVANSVILLE   Evansville, IN — GPA - 3.8

Technical Skills

Database	MySQL			
Version Control	Git			
Languages	C++	PHP	CSS	C#
	Assembly	Python	HTML	Java
Frameworks & Tools	React & JS	Django	Node.js	

WEB DEVELOPMENT EXPERIENCES

NexTech   Evansville, IN — June 2025
Intern
- Developed responsive web applications using HTML, CSS, JavaScript, and PHP
- Collaborated with team members to implement backend functionality and improve UI/UX
- Built and deployed a professional developer portfolio showcasing full-stack projects

Project Experience

Freelance Web Developer   Newburgh, Indiana — April 2023-Present
- Developed several web applications using HTML, CSS, JavaScript, and PHP for small businesses and local clients
- Designed responsive websites with emphasis on UI/UX, focusing on usability and cross-platform compatibility
- Integrated MySQL databases with back-end systems to create interactive features such as customer logins and data management tools
- Utilized Python for automating backend tasks and C++ for more complex back-end functions and API integration

Competition

CSforGood Competition — Sept-Dec 2024
Back-End Lead Developer
- Collaborated with a team of 5 to design and develop a full-stack web application aimed at providing sustainable solutions for local communities
- Advanced and expanded back-end systems using MySQL, PHP, and C#, ensuring efficient data management and processing
- Integrated APIs, created secure user authentication, and optimized server-side performance to enhance user experience
- Created an electronic signature system based on <canvas> that would save in the database as var(binary)
- Contributed to debugging and troubleshooting to ensure the application's stability and scalability
- Won the competition showcasing the application's impact and functionality
